## 2025 Prize for Scientific Excellence in Medicine

Dear Friend,

The American-Italian Cancer Foundation (AICF) invites you to nominate a candidate for the 2025 **Prize for Scientific Excellence in Medicine**. The Prize has been established to recognize important discoveries in cancer biology, prevention, diagnosis and/or treatment. Two awardees will be selected and each presented with a \$50,000 prize at AICF's 2025 Benefit Dinner & Auctions in New York.

Nominations are made in two categories: excellence in clinical/translational oncology and in basic science cancer research, and **must be based on significant contributions made by the nominees in the past 5 years**. Please note that nominator and nominee cannot work for the same institution. AICF's Scientific Advisory Board Members and their family members are not eligible for the Prize.

The Prize winners are then required to give a lecture on their research at a symposium which is held the day following the Benefit Dinner.

The nomination form is enclosed. Each submission should include:

- A brief description of the discovery or discoveries on which the nomination is based (500 words or less)
- A list of five publications referenced to the description above
- A short curriculum vitae

You may nominate up to three individuals. Please submit a separate form for each individual. Nominations must be received on or before March 28, 2025 at 11:59 PM EST. Submissions need to be sent via email to Executive Director Cristina Aibino at [caibino@americanitaliancancer.org](mailto:caibino@americanitaliancancer.org)

Thank you for your attention.

Sincerely,

American-Italian Cancer Foundation
