Thank you for participating in our No-Cost Breast Cancer Screening Program. This document will explain how to prepare for your visit to our Mobile Care Clinic.

Please Note: We will not perform a mammogram if you are pregnant or think that you may be pregnant, nursing or have stopped nursing for less than 6 months.

On the day of your mammography:

- Plan to wear a 2-piece outfit. That way you will only have to remove your top during the mammogram and Clinical Breast Exam (CBE).
- Do not use deodorant, lotion, perfume or powder under your arms or on your chest. Certain metallics in these products can appear on the screening as spots.
- Take your medicines and eat as usual.

Things to know:

- If you schedule your mammogram appointment a week before or during your period it is likely you will experience inflammation and breast tenderness.
- You should bring any previous mammogram films to your appointment, especially if they were performed at a different facility and if your previous mammogram results have been irregular.
- When you arrive at our mobile Care Clinic please check-in with our personal and inform them of your appointment time.

What to Expect:

You will need to complete paper work similar to what you complete at your doctor's office. After your paperwork has been reviewed you will be directed to the mammography room for your mammogram. It takes approximately 10 minutes to perform a mammography. After the mammography is completed you will be introduced to our nurse who will perform your CBE. A CBE is a physical examination of the breast. After the examination is completed, the nurse will teach you how to do your own self breast exam and what to look out for so you can monitor you breasts on a monthly basis.

Your results will be mailed in approximately 2 weeks in the envelope you address earlier. If you have questions regarding your results you may call our medical provider Multi-Diagnostics Services at 718-454-8586.

Thank you!
